# Proudly Alberta Made Since 1958

# MAPLE DOORS

Maple cabinets have a fine, indistinct grain making it a popular choice for contemporary designs. This hard, light coloured wood is finished to a fine luster. Although generally understated, maple develops a sophisticated character when treated with dark, penetrating stains.

*Colours may vary slightly depending on your viewing device*

# OAK DOORS

Oak is a favourite for its strength, stability and consistency. Stains accentuate its distinctive grain for a timeless look and unmatched durability.

# STAIN OPTIONS

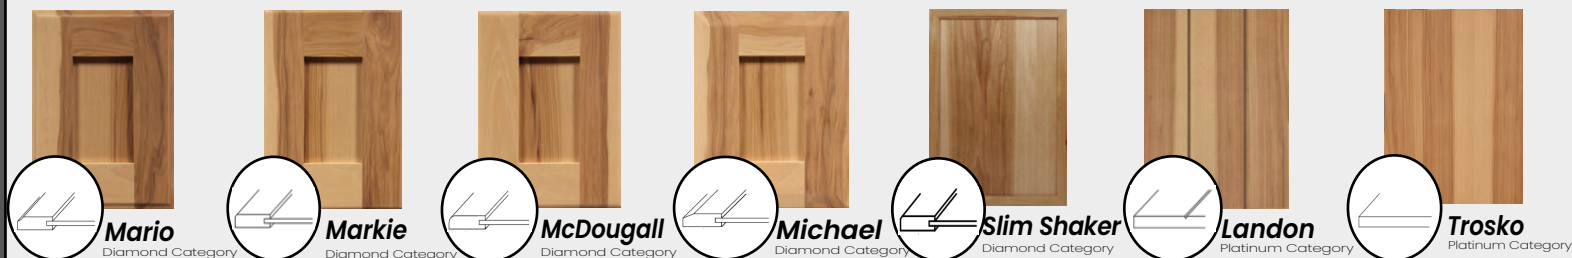

# Earth Series

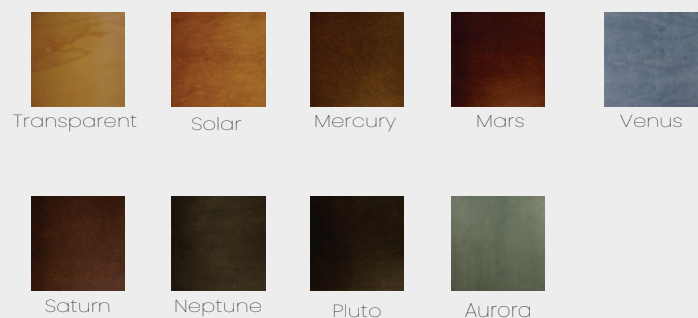

# HICKORY DOORS

With its rich colour variation and distinguished dark lines, hickory provides a unique look. It takes stains consistently and is exceptionally strong and durable.

## STAIN OPTIONS

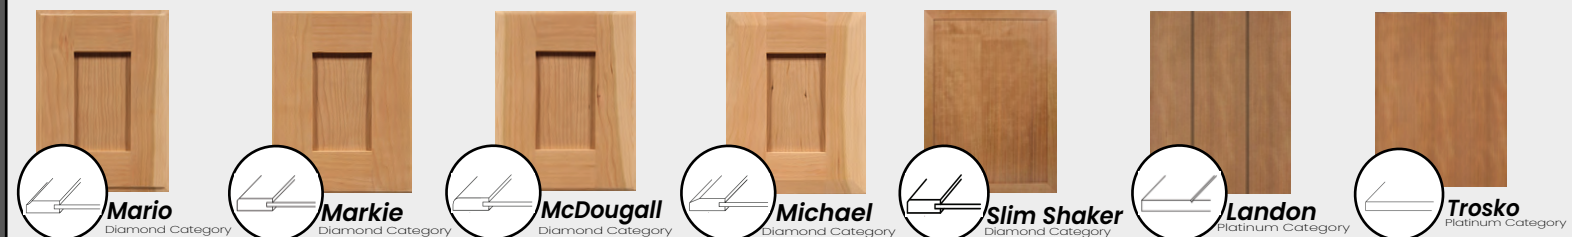

## Earth Series

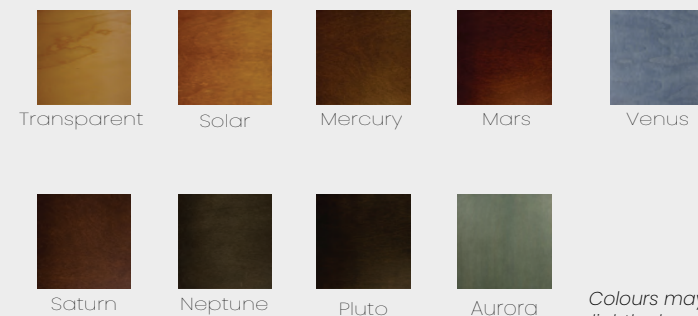

# CHERRY DOORS

Adding value to any home, cherry is often considered the king of cabinet woods. Taking all finishes well, its variable and unique grain pattern provides an air of refined luxury.

## STAIN OPTIONS

Colours may vary slightly depending on your viewing device

# MDF DOORS

We use the highest quality Medium Density Fiberboard (MDF) available. MDF is a high grade composite material made from recycled wood. Its unmatched dimensional stability makes it the best choice for painted surfaces.

## COLOURS

White

Cream

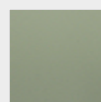

Antique White

Grey White

Grey

Willow

Colours may vary slightly depending on your viewing device

# POLYMER DOORS

Polymer surfaces provide the most durable and scratch resistant gloss finish. Superior to vinyl by a wide margin, polymer doors are the perfect choice for a clean, modern look.

Colours may vary slightly depending on your viewing device

# NEXTEK SHAKER DOORS

GOLD CATEGORY

Nextek doors feature a new polymer laminate material that is superior to all known cabinet finishes. It is more affordable, consistent and durable than wood or vinyl, and highly resistant to heat, chemicals and scratching.
